## Guidelines for Journal "Interdisciplinary issues in Education"

### (i) Title page

The title of the article should be intelligible, brief and informative. The maximum length should not exceed 125 characters. All of first letters of the major words in the main title and the subtitle should be capitalized, if the article is written in English language. The minor words should be in lowercase.

### (ii) Abstract

An abstract of the manuscript should be with a maximum length of 250-300 words for a full-length article. It should be clear concise and complete with a brief summary of the research including the objectives, methods, results and conclusions.

Three to five keywords should be provided just below the abstract. The initial letter of the keywords should be written in capital letter.

### (iii) Main Text

The main text should be ranging from 3000-5000 words. The structuring of the manuscript should be as follows:

- The Introduction should describe the significance of the paper beginning with a paragraph of explanation of existing knowledge and research gap of the problem under investigation leading to the major research questions or objectives.
- The Methods and Materials section should provide sufficient information. Hence a clear description of technical procedures should include the study area, sampling design and methods.
- The Results and Discussions section should be stated concisely and clearly in descriptive, tabular and graphical forms with interpretation based on the nature of the study. It should address the analytically and interpretive.
- Conclusions Should clearly point out the main findings which must be justified by the analysis of the results.

### (iv) Acknowledgements

Acknowledgements (if necessary) should be short and specific providing information about various supports received for the research

### (v) References

References should be cited as per 7<sup>th</sup> APA edition.

### (vi) Peer Review process

It is based on the double-blind peer reviewed process to find out the quality of academic article. The plagiarism of the manuscript will be checked by authenticate software. Below 5% of the plagiarism will be entertained.
